Pure Coffee sorts	
Columbia	Full middle strong coffee. Drinking by any time and cause. You can give it away as a gift, because it is very good balanced. Made with filter coffee maker and also full automats.
Guatemala	Tasteful like the Columbia or Nicaragua, just less strong. You can drink this coffee in the evening. Made with filter coffee maker and also full automats.

Äthiopien	For experts it is THE ONE AND ONLY coffee from the coffee-country of origin. The best espresso either you make with an Italian Coffee-machine on the stove filter coffee maker or with full automats. A real treat!
Nicaragua	A friendly coffee, not too strong with a light and fine bitter flavour. Sort-purely. Use filter coffee maker and also full automats.
Costa Rica	A perfect coffee full of taste, well balanced and good-tasting. An experience! Use filter coffee maker and also full automats.
Columbia without caffeine	A coffee full of taste, a bit more tasteful than the Harmonia just without caffeine. Use filter coffee maker and also full automats.
Mexico	Grown up by ecological cultivation with German "Demeter"-high standard. Strong coffee with a lightly peatiness taste
Kenia	Like the Äthiopien just a bit more tasty and aromatic. In any case stronger than the south and middle American sorts. Strong coffee with a peatiness- chocolate taste.

New sorts coming: Malawi Mapanga, Australia Skybury, New Caledonian yellow Bourbon, etc...
